Brief Report of Session

The session today was in the Main Hall. After praying Isha, the boys were over-excited and refused to partake in anything except to play football. The session was therefore spent playing football.

Incidents or Accidents

A boy who is not part of the group was overheard making a positive comment about the race of a boy who is in the group. The parents of the boys involved were contacted and a discussion was held to determine the reason for this and the impact it had on both boys. The issue was settled amicably outside the group. A session on race and tolerating differences will be arranged for the boys in the near future.
