## **Brief Report of Session**

The session today was in the Main Hall. Today's discussion followed on from the previous session where we discussed our relationship with Allah SWT. The discussion this time was about our relationship with mankind. We started off by listing key points the boys should be aware of in their daily interactions with people: worship only Allah SWT, respect one's parents, be generous and not wasteful or miserly with wealth, be just, do not support, permit or praise unjust killings, do not commit adultery, care for orphaned children, keep promises, trade and interact with others with honesty and do not be arrogant. The discussion was interactive and brought up points about how we should always be aware that Allah SWT is constantly aware of us how and how the best friendship groups are where Allah SWT is remembered as Allah SWT remembers us in an even better gathering.

We ate pizza and then played a novel game involving holding a helium-filled balloon which had to be let go of in order to collect things we needed to support our education, family and work. The boys soon realised that it was hard to hold onto your "faith" when distracted by unnecessary desires, and held onto their "faith" better when more focused on simple desires. One boy was awarded a prize for holding onto his "faith" the best! We closed the session at 9 pm.
